

Meadowfresh Dairy Corporation, Port Coquitlam, BC, Canada: Testimonial

Several years ago, **Meadowfresh Dairy Corp.** began the process of sourcing out a cost effective solution for the supply and maintenance of electric pallet jacks and forklifts. We were looking for a local company that offered both new and used options along with a strong knowledge and expertise with servicing the equipment they supplied. Through a recommendation we contacted Westminster Lift Truck and Services, LTD and a long term successful relationship started and continues today.

We appreciate the high level of service and quality products offered by Westminster Lift Truck and Services, LTD. and would refer them to a company in any industry requiring new or used equipment and service.

Regards,

Ron Irwin
